About Us

Automated Test System Technologies Private Limited has been functioning in the industry for around 13 years. Incepted with a goal of providing lab solutions in **2000**, we have been able to carve a niche in the industry for our offered products and services. We have established ourselves as a leading **manufacturer and supplier** of a wide range of **Test Rig Automation System, Acquisition System, Data Monitoring System, Real Time System, High Speed Data Logger, Electronic Tester, Vision Inspection** and many more. We have also gained recognition in providing **Labview Programming Service** to our valued clients. **Automated Test System Technologies Private Limited** was established as a private limited company in **Chennai**, the capital city of **Tamil Nadu, India**. We have been successfully operating in the industry for over a decade now and we have put all our efforts to realize the organizational goals in terms of achievements and success. In a decade time we have been able to measure certain heights and came across several mile stones. Above all these has contributed to the success of our organization. But above all the efforts of our team and the infrastructural facility has played the major role.

The **Managing Director** of our organization, **Mr. Viswanathan Vaidyanathan**, has successfully played the role of our mentors. Under his parenthood guidance, all the departments of our organizations have been functioning exceptionally well. He has directed all the activities of our teams and has motivated the team at the time of depressions. He has always inspired the development of the personnel along with the development of the organization. He is a veteran leader who has led us from the front in all the actions towards new achievement.
